

AFT pres slangearmatur, DS omløber

Konstruktion:

Armaturet består af en studs og en muffe, der presses sammen under stort tryk og derved skaber en stærk og meget glat overgang mellem slangen og armaturet.

- Leveres med omløber efter DS-standard
- Tilslutninger mellem 25,0 mm. og op til 102,0 mm.

Kvalitet:

Studsen er fremstillet i rustfrit stål AISI 316 med en overfladeruhed indvendigt på R 0,8 μ og forsynet med batchnummer. Muffen er fremstillet i rustfrit stål AISI 304.
